Accreditation Canada Standards Development Process

- Expert Advisory Committees
- Literature Reviews
- Principles for Standards Development:
  - national in scale
  - applicable to all health organizations
  - throughout the continuum of care
  - public and private
## Qmentum Standards

### Standards Areas

**Leadership**
- Governance

**Service Excellence**
- Customized as required for specific sectors, services, and markets

### Populations (used by regions)
- Cancer
- Child/Youth
- Chronic Conditions
- Maternal/Child
- Mental Health
- Seniors

### Sectors and Services
- Acquired Brain Injury
- Ambulatory Care
- Ambulatory Systemic Cancer Therapy
- Assisted Reproductive Technology
- Blood and Transfusion
- Cancer Care and Oncology
- Case Management
- Child Welfare
- Community Health
- Critical Care
- Developmental Disabilities
- Diagnostic Imaging
- Emergency Department
- Emergency Medical Services
- Home Care
- Hospice Palliative and End of Life
- Infection Prevention and Control
- Independent Medical/Surgical Facilities
- Laboratory
- Long Term Care
- Medication Management
- Medicine
- Mental Health
- Obstetrics
- Operating Rooms
- Organ and Tissue Donation and Transplant
- Point-of-Care Testing
- Primary Care
- Public Health
- Rehabilitation
- Reprocessing and Sterilization
- Staffing Agencies
- Substance Abuse and Problem Gambling
- Surgical Care
- Telehealth

### Custom Markets
- Aboriginal Health Services
- Corrections Canada
- Primary Health
- Stroke
- Sterilization
Project Deliverables

- Develop and disseminate national standards for ambulatory chemotherapy delivery settings
  - Review literature and ambulatory IV chemotherapy practices
    - Informed by work of CAPCA Systemic Therapy Working Group
  - Establish Advisory Group to inform process
  - Pilot testing and refinement
  - Web-based national consultation and finalization
Advisory Committee

Purpose

- To advise Accreditation Canada on the development and implementation of an accreditation program for ambulatory IV chemotherapy services.

Membership selected to represent

- Ambulatory IV chemotherapy service providers
- Accreditation Canada surveyors
- Experts in the field
- Participants from across the country
- Range of procedures performed
## Advisory Committee Members

- Engaging prepared and proactive staff
- Providing safe and appropriate services
- Safe handling and administration of systemic cancer therapies
- Maintaining safe and effective equipment
- Maintaining accessible and efficient clinical information systems
- Monitoring quality and achieving positive outcome
Standards Development Process

- Advisory Committee meetings:
  - July 27, 2010
  - September 29, 2010
  - December 2010

- Pilot-testing - June 2011

- Released - September 2011
The following organizations have endorsed Accreditation Canada’s Ambulatory Systemic Cancer Therapy Services standards:

www.partnershipagainstcancer.ca

The Canadian Partnership Against Cancer is an organization funded by the federal government to accelerate action on cancer control for all Canadians. Bringing together cancer experts, government representatives, patient and survivor groups to implement the first pan-Canadian cancer control strategy, the vision is to be a driving force to achieve a focused approach that will help prevent cancer, enhance the quality of life of those affected by cancer, lessen the likelihood of dying from cancer, and increase the efficiency of cancer control in Canada. For more information, visit partnershipagainstcancer.ca. The Partnership is also the driving force behind cancerview.ca, an online community linking Canadians to cancer information, services and resources.
Scope: Ambulatory Systemic Cancer Therapy Services Standards
