

REAL WORLD EVIDENCE BOOTCAMP

Explore Real World Evidence (RWE) in a 4-day program designed by experts and tailored for professionals seeking to enter or enhance their knowledge in this field. This program is set at a beginner or novice level.

We will cover important basics of RWE, commonly used methods and designs, important data quality and linkage concepts, and explore how RWE can be used in private industry, government, and academia to make decisions, spark innovation, and shape healthcare policies.

Dates

June 24th - 27th 2024

Locations

Toronto and Ottawa

Topics we will cover:

- Study Design
- Data Quality
- Common Methods
- Critical Evaluation
- Applications in Decision-making
- Communication and Reporting
