

The project AdHopHTA aims to ...

...strengthen the use and impact of excellent quality HTA results in hospital settings, making available pragmatic knowledge and tools to facilitate adoption of Hospital-based HTA initiatives.

### Strategic objectives of the project

1. To perform a critical analysis of current formally established HB- HTA functions;
2. To provide with a set of principles for best practice in HB-HTA;
3. To advance a framework for setting a collaboration among current HB-HTA initiatives and deployment to other interested EU hospitals
4. To promote the collaboration and coordination of Hospital-based HTA initiatives with HTA National/ Regional organisations.

### Activities, methods and project outputs

What does Hospital-based HTA mean?

Proj. Coordinator

### Project time plan

### Partners involved

- 7 Hospitals
  - Hospital CLINIC (ES) - coordinator
  - Gemelli U.H. (IT)
  - Odense U.H. (DK)
  - Lausanne H. (HE)
  - Helsinki U.H. (FI)
  - Tartu U.H. (EE)
  - Ankara U.H. (TU)
- 2 HTA Agencies
  - LBI-HTA (AT)
  - NOKC (NO)
- 1 Business school
  - IESE (ES)

Increasing dilemma for hospital decision-makers...

[fix budget + competing technologies]

and decreasing

The AdHopHTA project is funded by the EC Seventh Framework Programme  
under a FP7-HEALTH 2013-INNOVATION-1 grant agreement number 30528163

# What does Hospital-based HTA mean?

↪ HB-HTA

- Tailoring HTA to specific [hospital circumstances](#) (comparators, how care is organized in the hospital, BIA,...)
- Keeping a sharper focus on the [HTs](#) that are of specific interest for the hospital
- Timely adjustment to [hospital context](#)

Providing decision-makers with [contextualized](#) assistance on how to make sound investment decisions on innovations, to ensure that good-value innovative health technologies (HTs) reach clinical practice.

- Tailoring HTA to specific **hospital circumstances** (comparators, how care is organized in the hospital, BIA,...)
- Keeping a sharper focus on the **HTs** that are of specific interest for the hospital
- Timely adjustment to **hospital context**
