Cam Lane, M.Sc.

Cam Lane received a master of science degree from the University of Alberta in 1997 and has worked for the Government of Alberta for 22 years in the area of environmental and natural resource management. Cam was diagnosed in 2006 with stage 2c melanoma. After repeated surgeries and scans over the next six years Cam was diagnosed with Stage IV melanoma in December 2013. Placed on an immunotherapy trial in December 2013 - 2017 Cam had a complete response to therapy and currently enjoys 5 years cancer free. Cam has spoken at several Cancer information events over the past several years regarding his cancer journey in support for awareness of patient experiences, values and enhanced outcomes for patients and families. Cam has three active children and lives a very active life in Edmonton.
