

Anca Prica, MD, MSc, BSc

Dr. Anca Prica is a staff hematologist at Princess Margaret Cancer Centre, and assistant professor in the division of hematology at University of Toronto, appointed in 2014. She is currently the site lead of the lymphoma and myeloma program at Princess Margaret Cancer Centre. She did her initial medical training in Toronto, and her clinical training in internal medicine and hematology in the University of Toronto Program. She then did a 2-year fellowship in malignant hematology at the Sunnybrook Health Sciences Centre and a master's in health research methodology at McMaster University, with research interests in quality of life and economic evaluations. Anca's clinical work focuses in both lymphoproliferative and plasma cell disorders, as well as autologous stem cell transplantation and CAR T-cell therapy. Her research interests focus on health services research, particularly economic evaluations and decision analyses for oncologic questions, examining resource use and cost of care, as well as toxicity of chemotherapies, and their effects on quality of life and caregiver burden.
