

Reports and Recommendations

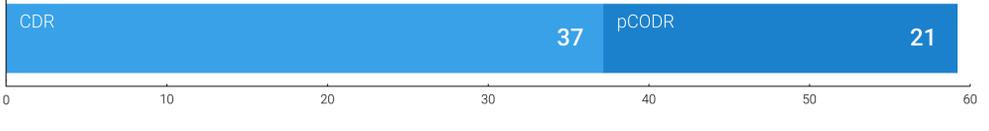

CADTH allocates resources to providing credible, objective evidence using a variety of report types.

Completed Reviews (438 Total)

Reimbursement Recommendations Issued (58 Total)

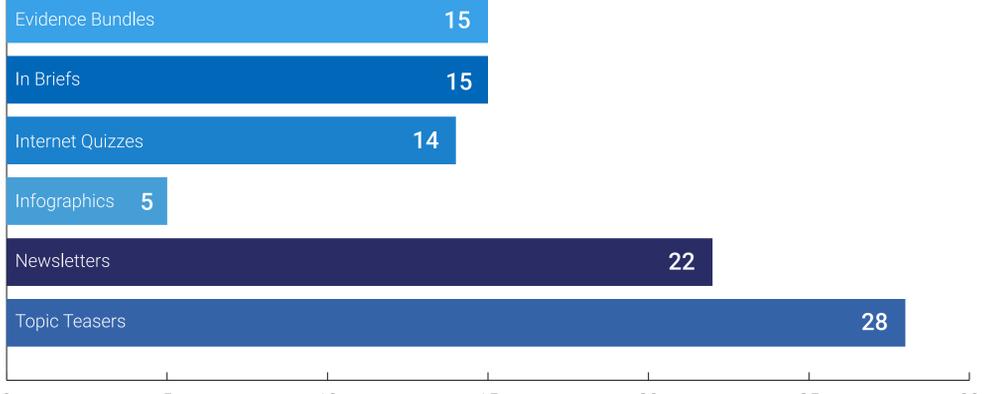

reports and recommendations

Access

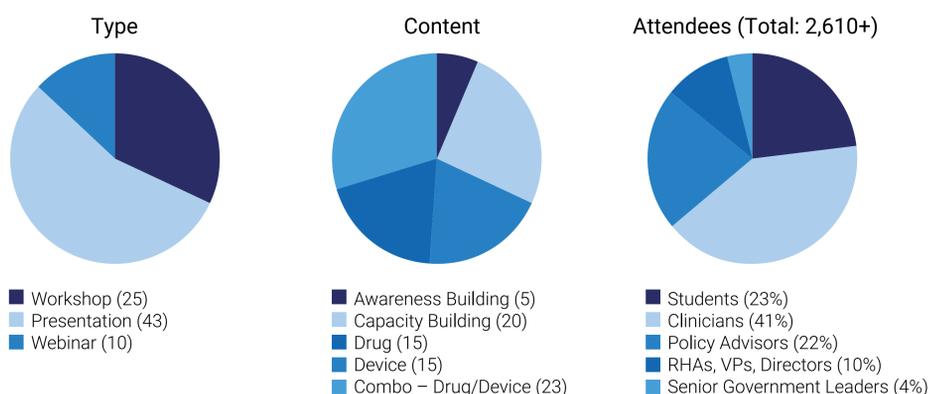

CADTH's numerous outreach services help disseminate evidence to those who need it most.

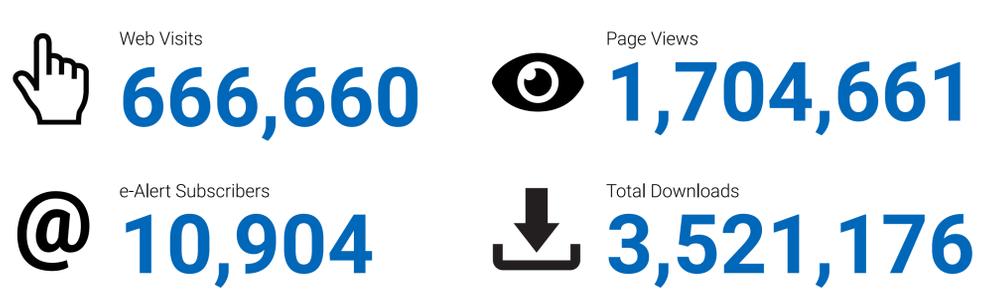

Implementation Tools (99 Total)

Knowledge Events (78 Total)

Website Metrics

access

Use

CADTH uses clearly defined indicators to monitor how its evidence is being applied across the jurisdictions.

Timeline Met and Alignment

Timeline Met: Issue a recommendation within 180 calendar days of receiving a complete submission.
Alignment: Consistency with which jurisdictions align their drug plan listing decisions with our recommendations.

use

Impact

CADTH is making meaningful contributions to a modern and sustainable health care system in Canada.

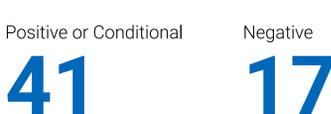

Recommendation Status With the pCPA

All positive or conditional recommendations for the 2019 fiscal year have been taken up for negotiation or are under consideration by the pCPA.

Recommendation Outcomes

Of 58 total recommendations issued by CADTH, 71% were positive or conditional, and 29% were negative.

Impact Stories

CADTH recorded 74 examples of impact stories for the 2018–2019 fiscal year.

A Sample of CADTH's Impact Across the Country

Northern

CADTH evidence on non-invasive prenatal testing (NIPT), along with an informal scan CADTH conducted on its funding in other jurisdictions, was used by the Northwest Territories Department of Health and Social Services to support its decision to fund NIPT.

Eastern

CADTH evidence and evidence-informed implementation approaches were used by the Atlantic Renal Collaborative to improve the adoption of home-based dialysis within the Atlantic provinces.

Western

CADTH evidence review and implementation support (including facilitating strategic linkages among stakeholders within and between jurisdictions) contributed to ongoing efforts in multiple jurisdictions to address challenges related to appropriate pain management, opioid use prescribing, and opioid use disorder treatment.

Central and Federal

Our project on community water fluoridation has been called "the best national piece of work on this topic within the G7 countries," and this work will be used by chief dental officers as they support local decision-making.

ABOUT CADTH

CADTH is an independent, not-for-profit organization responsible for providing Canada's health care decision-makers with objective evidence to help make informed decisions about the optimal use of drugs and medical devices in our health care system.

CADTH receives funding from Canada's federal, provincial, and territorial governments, with the exception of Quebec.
