TITLE: Lyric Hearing Aid: Clinical and Cost-Effectiveness

DATE: 26 May 2011

RESEARCH QUESTIONS

1. What is the clinical effectiveness of Lyric hearing aid in adults?
2. What is the cost-effectiveness of Lyric hearing aid in adults?

KEY MESSAGE

No evidence was identified pertaining to the clinical and cost-effectiveness of the Lyric hearing aid in adults.

METHODS

A limited literature search was conducted on key health technology assessment resources, including PubMed, the Cochrane Library (Issue 5, 2011), University of York Centre for Reviews and Dissemination (CRD) databases, ECRI (Health Devices Gold), EuroScan, international health technology agencies, and a focused Internet search. The search was limited to English language articles published between Jan 1, 2001 and May 11, 2011. No filters were applied to limit the retrieval by study type. Internet links were provided, where available.

The summary of findings was prepared from the abstracts of the relevant information. Please note that data contained in abstracts may not always be an accurate reflection of the data contained within the full article.

RESULTS

Rapid Response reports are organized so that the higher quality evidence is presented first. Therefore, health technology assessment reports, systematic reviews, and meta-analyses are presented first. These are followed by randomized controlled trials, non-randomized studies, and economic evaluations.
No literature was identified pertaining to the clinical effectiveness or cost-effectiveness of the Lyric hearing aid in adults. Additional literature of potential interest is provided in the appendix.

OVERALL SUMMARY OF FINDINGS

No relevant studies were identified; therefore, no summary pertaining to the clinical effectiveness or cost-effectiveness of the Lyric hearing aid in adults was provided.
REFERENCES SUMMARIZED

Health technology assessments
No literature identified.

Systematic reviews and meta-analyses
No literature identified.

Randomized controlled trials
No literature identified.

Non-randomized studies
No literature identified.

Economic evaluations
No literature identified.
